**Subject** ICAR re-accreditation as DNA Data  
Interpretation Centre

Dr. Yoshiyuki Miyazaki  
Maebashi Institute of Animal Science  
y-miyazaki@liaj.or.jp

Dear Dr. de Miyazaki,

Under the auspices of the ICAR DNA Working Group, the Interbull Centre has assessed and compared the Data Interpretation Results file submitted by Maebashi Institute of Animal Science and is pleased to confirm a successful match of results.

As such, Maebashi Institute of Animal Science is now an ICAR re-accredited DNA Data Interpretation Centre for parentage verification, effective January 2021.

As a reminder, this ICAR accreditation is valid for a period of two years and will need to be renewed in January 2023.

This information and the name of your DNA Data Interpretation Centre have been already published on the ICAR web site, being the page available [here](#).

With best regards.

Martin Burke
